## **SPECIAL COVID-19 REQUIREMENTS**

Attendees will follow all California State, and Placer County Covid-19 guidelines and restrictions as we understand them. We have assumed that restrictions will be mid-range; neither the most nor least restrictive. We will not know the exact requirements until shortly before the seminar.

Covid-19 requirements may include liability waivers, temperature checks, masking requirements, social distancing, no spectators, "train and go" procedures, etc.

While 2020 and 2021 have been extraordinarily difficult, with your help and understanding we will return to normal soon.

## **Please tell us (typed responses appreciated):**

- What would you like to achieve at this class? Include water exercise you want to work on as well as strengths the dog has.

- What experience does your dog have with other dogs?
  
- What experience does your dog have with water and land exercises?

**Instructor's Notes:**

Lori Littleford has owned and trained Newfoundlands since 1982. She's titled all of her newfs. Lori's training philosophy is a mixture of "Mother Knows Best", "Supper Puppy", and "Calming Signals". Her goal is to keep each training session as positive as possible with proportional corrections where needed.

Lori will be coordinating our experienced water work volunteer helpers to assist each dog complete a set of tasks designed to build their water skills, enhance the handlers understanding of how to communicate with their newf as well as how to increment training expectations for rapid progress and continued success. While we'll start with introductions and some basic safety background, most of the time will involve dogs and handlers rotating through the hands-on activity stations. Handlers should be prepared to get wet including shoes and life jackets. Bring low, medium and high value treats (small pieces as we'll be using them a lot!). All beginning dogs and any with impulse control issues will be worked on long lines.

**Release and Waiver of Liability and Indemnity Agreement:**
